

computer electronics recycling

Our mission is to provide both large and small clients with e-cycling processes to keep goods out of the waste stream, thereby reducing disposal costs and providing environmental benefits.

We provide environmentally responsible recycling and reuse services, as well as “certificate of destruction” and a “certificate of recycling” to a wide range of Corporate, institutional and government enterprises, including:

- + Custom Removal and Recycling programs
- + Asset Management Consulting
- + Secure Data Destruction and E-cycling Guaranteed
- + Equipment Brokerage Services

We perform recycling and dismantling services on our site including:

- + Dismantling equipment to component levels
- + Sorting and Baling of components
- + Auditable Packaging and Freight forwarding
- + Data destruction and other Recycling Related Services

We are a full certified ISO 9001:2000 ISO 9001, 14001, C of A and EPA facility all across North America. Our overall reuse and reclamation rate is well over 99.98%. The responsible environmental and business practices of our partners are carefully scrutinized and documented.

We accept a wide range of goods including computer and information technology equipments and parts, scientific, laboratory and medical instruments, and cabling.
